## INSULVAC HG FILTER ELEMENTS

Klantnaam	
Contactpersoon	
E-mail	
Telefoonnummer	
Relatienummer	
Offerte nummer	

**The filter elements have to be installed in**                      New equipment                      Existing equipment  
*If existing equipment then please specify the following for the current filter elements used.*

Supplier:

Type (*filter media, product name etc.*):

Filter-elements dimensions - Diameter:

mm

Length:

mm

Total number of elements installed:

pieces

Cleaning method e.g. Reverse jet, Mechanical etc.:

---

Operating temperature:                      Minimum                      Average                      Maximum

### Gas flow rate:

**Please state reference temperature for flow rate figure provided i.e. –**

Actual (at above operating temperatures)

Standardised/Normalised e.g. 273K or Ambient etc.

Minimum

Average

Maximum

Loading:                      Particulate                      Dust

Or

Brief description of dust properties e.g. sticky, dry, corrosive, poisonous etc.:

**Are there any secondary additions of powders in to the gas stream such as Lime, Sodium Bicarbonate, activated Carbon etc.?**                      Yes                      No

*If Yes, then please specify each below and addition rates of each (kg/hr of lb/hr)*

Gas composition

Water content                      % v/v

O2 content                      % v/v
